Yes. He said to give them what they asked for, no parking in front of Courthouse (5 spaces).

John and Donna,

I wanted to follow up on our previous inquiry regarding the removal of the on-street parking near the Columbus US Courthouse. We are looking to provide an update to GSA for our upcoming meeting. I look forward to your thoughts or recommendations, thanks.

Sincerely,

Bryan Hunnicutt, LSIT

Subject: Columbus US Courthouse and Post Office Security Renovation - On-Street Parking

John and Donna,

I wanted to follow up with you regarding the Columbus US Courthouse and Post Office Security Renovation regarding the on street parking existing on 12th Street. It is the US Marshal's Service request to inquire on the possibility of the removal of the on street parking along the frontage of the Courthouse on 12th Street. Please see the quick screenshot of the area.

Per USMS security requirements, the distance from building face to face of curb shall be 50'. The requirement of 50' is not obtainable because it would encroach on the nearest travel lane, however with the removal of the on-street parking a distance of approximately 46' can be provided. The area of the existing parking spaces would be replaced with a new curb and landscape island to prevent any parking or drop off directly in front of the Courthouse. Currently the parking in this area is 15. Min. maximum parking spaces for the courthouse.

Please take a moment and let me know your thoughts, reservations, or recommendations.

Thanks again for the assistance.

Sincerely,

Andrew Pankopp, PE, LEED AP BD+C
